

16th Young Researchers' Workshop (YRW) 2022

held as pre-symposium of the annual GA conference in Thessaloniki, Greece

Sunday, August 28th, 2022 from 10:00–15:30

Abstract submission deadline: May 15, 2022

What is the aim of the workshop?

The Young Researchers' Workshop (YRW) offers the unique opportunity to present own data as a **short talk** (10+5 min) in a free and relaxed atmosphere. Special emphasis is laid on an **intense discussion** between all participants.

When does the YRW take place?

The workshop is held on Sunday, **August 28, 2022** as a pre-symposium of the Annual GA Conference in Thessaloniki, Greece. It will start at 10:00 and end at 15:30.

Who can submit an abstract?

PhD students and early stage post-docs (only within their first year) are invited to submit an abstract for a short talk. Only high-quality abstracts can be considered. The YRW jury consisting of the Professors Alessandra Braca, Robert Fürst, Jürg Gertsch and Anastasia Karioti will review the abstracts and take the decision on whether a short talk will be granted or not.

What happens during the YRW?

After a welcome note, the YRW will start with an **impulse lecture** by a young but established scientist who will give insights into his/her area of research. He or she will also highlight who to step into and advance a scientific career. The main part of the workshop will be dedicated to **short lectures**. The YRW jury will select the two best presentations and will bestow the prizes to the two awardees in the YRW closing session.

What do the prizes include?

The two best presentations will be awarded with two categories of prizes: The **Discovery Award** (1,000 EUR sponsored by Professor Jürg Gertsch) and the **Bionorica YRW Award** (600 EUR sponsored by the company Bionorica SE). In the addition to the prizes, the two awardees will get the great opportunity to give their presentation **also in a special slot of the main congress**.
